How these were built

24 of 49 teammate pairings on this sheet are players who have mostly been on opposite teams so far. Built from every tracked lineup in Fall Workouts #11–#30: each split was chosen to put together players who have rarely shared the floor as teammates, while keeping ball-handlers, bigs and tracked net rating even on both sides. "New" = teammates on this sheet he has spent under 40% of shared court time with as a teammate.

How these were built

26 of 56 teammate pairings on this sheet are players who have mostly been on opposite teams so far. Built from every tracked lineup in Fall Workouts #11–#30: each split was chosen to put together players who have rarely shared the floor as teammates, while keeping ball-handlers, bigs and tracked net rating even on both sides. "New" = teammates on this sheet he has spent under 40% of shared court time with as a teammate. Also pushed away from Version 1 so each version is a different mix, not the same teams plus one.
