11/19/2025 — L 67-83 (vs Palomar (home)) | Moorpark net: -19.2

12/5/2025 — L 73-78 (vs Palomar (home)) | Moorpark net: -6.3

WHO IS PALOMAR?

Team identity, style of play, and four-factors analysis.

Core Identity: Palomar is an offense-first program — they win by generating more than they give up. They finished 19-11, ranked **#32/100 in Net Rating** (+5.6 pts per 100 possessions). Offensive Rating: 105.8 (#20/100 statewide, state avg 100.6) — above average. Defensive Rating: 100.2 (#43/100 statewide, state avg 101.1) — near average. Point differential: +7.7 PPG (87.2 scored, 79.5 allowed).

Roster Profile — Size and Scoring Structure

Guard Dependence Index (GDI): 77.3 — #13/100 statewide (state avg 66.9). GDI measures how reliant a team is on guards for scoring and playmaking. Palomar's 77.3 is above the state average of 66.9, meaning they are more guard-reliant than a typical CCCAA team. Scoring breaks down as: **guards 71.8% · wings 8.9% · bigs 16.3%.** Guards generate 82.8% of assists.

Offensive Profile — Above Average Efficiency (ORTg #20/100)

Shooting efficiency (eFG% 51.8%, #26/100; TS% 55.0%, #26/100): The state average is 49.6% eFG% and 52.7% TS%; Palomar's eFG% exceeds the state average by 2.2 points. TS% of 55.0% (+2.3 vs avg) reflects above-average overall shooting quality accounting for free throws and three-point volume.

FT Rate (32.6, #59/100, avg 33.9): Near-average access to the foul line. They access the foul line at a near-average rate.

Ball security (TOV% 15.3%, #5/100, avg 18.7%): Good possession care statewide. NST% 7.6% (#46/100) captures unforced errors — decisions and live-ball mistakes opponents did not directly create. This is near-average relative to state average, meaning Moorpark should protect possession but does not face an unusually turnover-prone opponent.

Offensive rebounding (OREB% 29.3%, #51/100, avg 30.2%): Average. Average offensive rebounding (29.3%, state avg 30.2%).

Defensive Profile — Near Average (DRTg #43/100)

Shooting suppression (Opp eFG% 49.4%, #42/100; Opp TS% 52.8%, #46/100): Opp eFG% is near the state average (49.4% vs 49.7% avg). Their defense holds opponents to ordinary efficiency — which means Moorpark's offense, executing at its normal level, should be able to score.

Turnover pressure (Opp TOV% 18.6%, #45/100 — near average at forcing opponent turnovers (18.6% vs state avg 18.6%). STL% 11.3% (#38/100), BLK% 4.1% (#58/100). Turnovers Moorpark commits are largely self-inflicted, not a product of elite pressure.

Defensive rebounding (72.7%, #33/100, avg 70.0%) and foul discipline (FC/40 4.4, #58/100): Above average on the defensive glass. Foul rate is near average: FC/40 4.4 (#58/100) . PF Eff 0.68 (#49/100) — steals plus blocks per foul.

Pace and Style

Palomar plays at above-average pace: 80.6 possessions per game (#12/100, state avg 74.9). PPG: 87.2 (#98/100 statewide). Opp PPG allowed: 79.5. At this pace, every extra possession is at a premium — Moorpark must protect the ball and execute on every trip.

Season Arc

Palomar was consistent throughout the season. First half: 11-4 (+8.8 net). Second half: 8-7 (+8.5 net).

HEAD-TO-HEAD: MOORPARK VS. PALOMAR 2025-26

Both meetings from Moorpark's perspective.

11/19/2025 — L 67-83 | Home (Moorpark) | Moorpark ORTg: 80.3 DRTg: 99.5 Net: -19.2

12/5/2025 — L 73-78 | Home (Moorpark) | Moorpark ORTg: 92.9 DRTg: 99.2 Net: -6.3

KEYS TO VICTORY — WHAT MOORPARK MUST DO

1. Contain Angel Ochoa — 16.3 PPG, 25.8 MPG.	Angel Ochoa leads Palomar with 16.3 PPG and 2.7 RPG on 25.8 MPG (30 GP). Perimeter scorer: 38.3% on 4.0 3PA/g. Ind ORTg: 121.8. Usage: 26.6%. FT%: 75.0% on 4.1 FTA/g — avoid fouling in post position.
2. Limit Isaiah Pomare — 15.6 PPG.	Isaiah Pomare is Palomar's second option at 15.6 PPG, 8.5 RPG, 1.8 APG in 25.9 MPG. Usage: 25.5%. Shooting 33.6% on 4.3 3PA/g.
3. Maintain shot discipline — Palomar Opp eFG% #42/100.	Palomar is a near average defensive team (Opp eFG% 49.4%, #42/100, state avg 49.7%). Shot selection and ball movement quality are critical — forced or rushed attempts will be punished by a defense that holds opponents below average.
4. Protect possession — Palomar Opp TOV% #45/100.	Palomar Opp TOV%: 18.6% (#45/100, state avg 18.6%). They rank outside the top 50 in turnover-forcing — Moorpark turnovers are largely self-inflicted, not a product of defensive pressure. Pace: 80.6 possessions/game (#12/100) — each possession surrendered carries proportionally higher marginal cost at this tempo.
5. Foul-target Justin White in late-game bonus situations.	Justin White shoots 62.9% from the foul line on 4.1 FTA/g — the lowest FT% among rotation players with meaningful foul-line usage. Intentional foul targeting is a viable late-game strategy in bonus situations.

Summary: Palomar finished 19-11 (Net Rating +5.6, #32/100 statewide). ORTg: 105.8 (#20/100). DRTg: 100.2 (#43/100). Primary offensive benchmark: sustaining Moorpark ORTg above Palomar's season DRTg of 100.2.
